Radio Frequencies	Max Power
2412 - 2472 MHz	19.77 dBm
5180 - 5240 MHz	22.81 dBm
5260 - 5320 MHz	22.83 dBm
5500 - 5700 MHz	26.34 dBm

NOTICES:

All WatchGuard products are designed and tested to meet strict safety requirements. These requirements include product safety approvals and other global compliance standards. Please read these instructions carefully before operating the product, and refer to them as needed to ensure the continued safe operation of your product. Additional information about the hardware, including additional languages, a full list of safety approvals, global compliance standards, and certifications can be found in the Hardware Guide for this device located on the WatchGuard website:

https://www.watchguard.com/wgrd-help/documentation/hardware-guides

- · Do not place objects on the power cord.
- Do not obstruct the ventilation openings. These openings prevent overheating of the machine.
- Never push objects of any kind into slots or openings on this equipment.
 Making a contact with a voltage point or shorting out a part may result in fire or electrical shock.
- When removing or installing an appliance, follow the general installation safety instructions.

If protective earthing is used as a safeguard, the instructions shall require connection of the equipment protective earthing conductor to the installation protective earthing conductor (for example, by means of a power cord connected to a socket-outlet with earthing connection). To meet safety and electromagnetic interference (EMI) requirements, you must make sure the power source is connected to earth ground before you connect power to the device.

Connect the PoE interface only to PoE networks, without routing to the outside plant.

This product is intended to be supplied by a Listed Power Adapter or DC power source marked "L.P.S." (or Limited Power Source or PS2) rated 54V DC, 1A minimum, maximum ambient temperature (Tma)=40°C, or supplied by a Listed PoE Adapter marked "L.P.S." (or Limited Power Source or PS2) rated 54VDC, 0.6A minimum, maximum ambient temperature (Tma)=40°C. For more information regarding approved power sources, see the Hardware Guide for this device.

This product is for indoor use only.
